Book One
Chapter One A
On Being Kedrick the Head Trip of Cacti Pterosaur, an Anarcho-Primitivist Songwriter and Artist

Kedrick the Head Trip here. Being the Head Trip is satirical, not literal. It doesn't mean not being taken seriously. It just vaguely rhymes, or at least has assonance. Anyone who knows me knows that my anti-authoritarian views are learned from experience. I sublimate via writings and music so I won't have to act angry,I vent my justifiable anger because creativity is my outlet.
The statists aren't above blaming cripples for using crutches, hence their appeal to hypocrisy; they blame me for using technology to disseminate a critique of technology as if I'd do nothing and march towards extinction to dodge accusations. Civilization and state are synonyms. Only statists deny that civilization can't be devoid of state.

Transmission of once rampant viruses is prevented by cleaner water, not vaccines. Anyone who's seen a commercial for pharmaceuticals ought to notice the long list of "side effects" is most of the commercial. The pharmaceutical industry manufactures vaccines.
The derogatory term "anti-vaxx" was coined by vaccinators to silence their critics.

In the summer of 2020, I learned that I'd probably have better housing by the fall. That's when my mood improved despite dystopia. The summer was interfered with, to say the very least. The lockdown is a slaughter.
The crooks will demand more than masks. The #lockdown already dragged on much longer than they said.
Deaths from viruses already declined by 90 percent *before* #vaccines were introduced. #Vaccinators steal credit from plumbers.
All deaths from the vaccine will be blamed on the virus.
The #vaccine will be mandated so #pharmaceutical companies remain in business.
The point of #vaccines is to cause harm so more #pharmaceuticals are sold. Scarlet

fever declined without any vaccine and typhoid fever declined without any widespread vaccination.
The journal Pediatrics *faked* its study alleging that vaccines somehow don't cause autism, like it's all a coincidence, an insult to people with said condition such as myself.
Many lost their jobs and now they know what it's like. The laws against discrimination are unenforced and I was denied employment. Now other ppl can suffer in poverty like I do.
The #scam demic killed people by crashing the economy when the populace was unprepared. Domestic violence, molestation, and suicide have skyrocketted because of stay at home orders. The #plandemic is a genocide.
Everyone who betrayed me can suffer like I do. That's what they get for disrespecting me all last summer when I was harassed and stalked by Mike Inigo. Continuum of Care forced me to share a house with that bully who threw out my belongings and pulled down his pants to indecently expose himself. I was denied a break from the stress the whole time.
It's not like nobody chills at all, nobody has the decency to chill with me.

As mentioned before, deaths from viruses already declined by 90 percent *before* #vaccines were introduced. The pro-vaxxers are a problem. They exploit everyone with #autism, diminishing and trivializing our plight.
The #pharmaceutical industry relies on vaccines to cause problems to sell more of its products as alleged solutions. More insulin is sold when vaccines cause more diabetes, more epipens are sold when vaccines cause more allergies, etc. More money is made from the medications to treat the harm caused by vaccines than from the vaccines from themselves, and there's "free" shots; vaccines are the backbone of the pharmaceutical industry.
Influenza has apparently NOT been "eradicated", there's been flu shots widely used for more than a few decades. The flu shots didn't "eradicate" the flu, the long list of "side effects" includes flu-like symptoms. It can also be fatal.
Injections of mercury, aluminum, etc are so hazardous that even small amounts can cause loss of speech, hand-flapping, etc. Injections of even small amounts are more hazardous than many other sources , such as fish, that contain mercury but aren't shot. Even after mercury was removed from many vaccines, aluminum and other ingredients continued contributing to the #autism epidemic.
Vaccines were known to cause and contribute to autism long before Andrew Wakefield's study that he was forced to retract due to harassment, slander, etc
Vaccines are what pharmaceutical companies can't get sued for. The taxpayers would be charged if and when there's compensation.
The #Ableism against people with autism is either ignored and/or encouraged within society. There's brutality inflicted upon people deprived of compensation.
Many lives were saved by sanitation, hygiene, and nutrition; not vaccines
---

#Vaccines caused #measles outbreaks, the #media lied, then changed the subject to #COVID19.If anyone is still catching #Vaccine strain measles, the #press doesn't even care enough to lie about it anymore.

Adam Lanza was under the influence of Prozac. The #pharmaceutical industry pays the #media to blame #autism rather than #psychiatry. Mass shooters were either taking psychotropic drugs or withdrawing from them.

To determine who's in control, ask who's claiming immunity from criticism? That'd be #vaccine manufacturers i.e. the #pharmaceutical #industry. Criticism of #vaccination results in #censorship and worse.

Chapter One B
Condemning the Political Abuse of Psychiatry
Here's an elaboration of my points from before:
The press doesn't report abuse inflicted upon autistic people. Instead, the populace is indoctrinated to hate and fear us as if we're all like Adam Lanza. There are varying degrees of autism. The media ignores the most severe cases. In my case, the able-ism is much worse than the condition itself. Employers refuse to hire me and the laws against discrimination are unenforced.
I'm gradually rising above the abuse. I finally have a medicinal cannabis license. There's no legal justification to accuse me of "abusing" said medical necessity when it's prescribed. I tapered the pharmaceuticals myself, thus avoiding withdrawal symptoms; and psychiatry has lost a customer. Decades of psychiatric fraud and torture exacerbated Post Traumatic Stress Disorder and that's inadvertantly how I got that license.
The rationale for misdiagnosis is "insurance companies will have to be told they're paying for something"; i.e. insurance fraud! Anyone can be misdiagnosed so drugs get pushed, the vast majority of them are never violent, people labeled "mentally ill" are more likely to be victims of violence than perpetrators; the torture inflicted upon them is encouraged by the authorities.
Many psychiatrists told me I would "never amount to anything" because they're ashamed of themselves, so they project their insecurities upon others, they ruin lives by misdiagnosing whomever they can; as expected from bullies.
The pushers are unwilling to lose even one customer. Every time they refused to taper the drugs, I was yet again traumatized by involuntary admission due to withdrawal symptoms. Post Traumatic Stress Disorder was misdiagnosed because psychiatry caused most of the trauma.
I finally was diagnosed with PTSD. I acquired my medicinal herb license in 2017, a major accomplishment. The pushers don't have any legal justification to accuse me of "abusing" said herb when it's prescribed.

Years after relegalization of medicinal cannabis in 2012, nobody removed unqualified doctors and others who think the first medical necessity somehow "causes" every problem that exists and then some.
The drug pushers were wrong, all of their claims are backwards. The first medical necessity motivates its users, improves concentration, and prevents paranoia, anxiety, and depression because it's relaxing; and saves lives.
Medicinal cannabis clears my head so I focus. Dr. Jeffrey Shelton claimed otherwise while pushing drugs to impair concentration and cause depression and anxiety.
Dr. Micheal Edward Balkunas of New Britain General Hospital caused damage that persisted since 2005.
Before 2005, nobody denied that I was a "gifted and talented" savant on the highest functioning end of the autism spectrum. In 2005, Dr. Micheal Balkunas falsified medical records. From 2005 to 2015, I was falsely accused of "paranoia, delusions, psychotic tendencies, lack of insight, and polysubstance abuse" because that's how pharmaceuticals are pushed.
Community Mental Health Affiliates convinced a Probate Judge to appoint a Conservator of Person and Estate, Attorney Katrina Camera, at the behest of Dr. John A. Nazarian. I was discharged from CMHA to Continuum of Care in 2015.
When I was harassed and stalked by Mike Inigo, the staff at my house stayed in the office to not witness him throw out my belongings, and I wasn't reimbursed. They presumed they could get an easy paycheck. The bully pulled down his pants and indecently exposed himself and got away with it. He was eventually removed from the house.
Psychiatric APRN Susanne Wargo pushes Xanax without concern about brain damage or deadly withdrawal symptoms. I had a seizure when I was misplaced the pills and the junky staff at Bristol Hospital claimed the cause of the seizure was "undetermined", then lied under oath knowing their perjury was all it takes to persuade the Probate Judge. The junky staff say, "do as we say, not as we do".
"Special education" meant being forcibly drugged and thrown in detention for being forced to sleep in class. I excelled in school until I was forcibly drugged in 5th grade at the Wheer Clinic. I was kicked out of public school for being an easy target for bullies. I was forced to sleep through nearly every class from 5th grade until graduation.Classism and racism caused the phony "drug war" targeting indigent communities. This isn't a specifically American problem, authentic medical necessity had already been banned throughout Europe before the United States.
Harry J. Anslinger fooled lawmakers who had no idea they criminalized a medicinal herb that saved their lives. By using an obscure term spelled with a J instead of an H, Anslinger made the first medical necessity seem foreign. He targeted immigrants and jazz and swing musicians by claiming they were "insane on marijuana that makes them think they're as good as white men" despite that people of all walks of life rely on the first medical necessity.
The poor are targeted, considered a threat to the wealthy.

Psychedelic therapy is incontrovertible. The "freakouts" are unlikely in a therapeutic setting. Medicinal herb paves the way for relegalizing all authentic medical necessity.

In 2011, I was falsely accused of "attempting to assault an old lady" because I was a target of death threats and harassment by a demented old lady with a maid who steals. Falsifying a police report is a felony. My own witnesses didn't call the cops on me, they reported the demented old lady who threatened and harassed me. Solnik the bully is a felon who's been promoted to Detective. I was denied the paperwork to report him to the Internal Affairs Division. The court appointed psychiatrists falsely accused me of being "incompetent" as if they didn't know that the accuser is incompetent and not restorable. They favour the elderly.

The pharmaceutical industry profits from sickness. Vaccines are pharmaceuticals. Before vaccines were introduced, the death toll from viruses already declined; mainly because of improved sanitation.

Pro-vaccine propagandists either don't know or don't care that pharmaceutical companies manufacture vaccines and they can't be "one size fits all", they're like Russian roulette, different people react differently to vaccines; and the results are terrible. Autoimmune diseases are on the rise because of vaccines.

The populace is systematically poisoned. That's how pharmaceutical companies sell their drugs to sell more drugs. Vaccines cause customers. The vaccinated vast majority gets sicker and sicker and sicker. Vaccines can cause seizures, encephalitis, and worse.

Death is listed as a "side effect" of vaccines. When babies die after vaccination, the euphemism "Sudden Infant Death Syndrome" is used as if the cause of death were unknown. The pro-vaccine propagandists say they'd "rather be autistic than dead" as if they've never heard of other possibilities besides autism and death.

The warning label on toothpaste says to call a Poison Control Center if its swallowed, yet the populace doesn't question why the same poison is in the water. They're indoctrinated and domesticated. Sodium fluoride has damaged their brains.

Most pro-vaccine propagandists don't know anything about autism, they think they're experts on my condition just because they watch TV and movies.

Anybody who already survived measles won't catch the same virus again due to lifelong immunity. Measles is a temporary infection that's rarely fatal. Surviving ailments is a rite of passage during childhood. Moreover, survivors of measles are protected from actual *diseases* such as cancer and Parkinson's disease.

The symptoms of mercury poisoning are also the symptoms of autism. When vaccination increases, autism increases. Even after mercury was removed from most vaccines, they still cause autism for other reasons including aluminum.

The pro-vaccine propagandists don't care that injection of mercury is inherently more harmful than ingestion thereof, such as in fish oil supplements.

Infant mortality increases along with vaccination. The US has the highest infant mortality rate because it has the most vaccines.
The media suddenly stopped talking about measles because now the fear mongering is over coronavirus. There's new mass hysteria, just like that.

I'm expected to fend for myself because I'm in the minority on the highest functioning end of the autism spectrum. I don't appreciate the media diminishing my plight.

In rare cases, even the government admits that vaccines can't be a one size fits all matter.

Chapter One C
Music and Medicinal Herb Saving My Life

Music and herb saved my life. That's how I kept my cool since my youth. I remained mellow despite the abuse inflicted upon me. If not, I could've been driven down a dark path and became more like Magneto than Professor X.

My most widely disseminated song is Ingenuity, a psychedelic conscious hip hop song :

https://youtu.be/GoLjmY48C84

Cats appear frequently in my dreams.

In April of 2019, the night after I attended my first Temazcal, a Mexican sweat lodge, my song Ingenuity finally reached 1000 views within about 7 months.

I was invited by _____, a certified level 3 Reiki practictioner and a 3rd generation Oracle.

Intuition definitely exists. Not being 100 percent accurate doesn't mean not having the ability. The skeptic extremists offer rewards to prove them wrong, then boast that they never intended to deliver such an award. They're charlatans and proud of it. Blind rejection isn't any more plausible than blind acceptance. The tests are rigged! Snobs ask "how could a psychic have bad luck?" as if it were that simple. Yeah, right!

I saw the 2004 tsunami of SouthEast Asia in a dream, but only a vague reference. I interpreted it during and after its fulfillment, not before

---

Astronomy and astrology are interchangeable. Nobody claimed otherwise until recently. The original science is incorrectly called "pseudoscience" and even "antiscience", an insult to everyone's ancestors.

I have an app to train for Extra Sensory Perception, and I'm on the global leaderboard. Any score of 11 or higher can be submitted. I've gotten 14 out of 25 correct. Anything more than 5 correct can't be attributed to chance alone. I usually guessed the colors on cards rather than symbols or numbers or et cetera. Out of 25 cards, there were 5 colors.

I frequently see certain numbers on clocks. 11:11, 1:11, 2:22, 3:33, 4:44, 5:55. This isn't coincedental. I see them more frequently than not. This has especially been the case since the Age of Aquarius dawned in the spring of 2017.

Birmingham Alabama's Celtic folk punk rock band Jasper Coal follows me on Instagram.

Chapter Two A
On Being a Lyricist
Cacti Pterosaur released Ingenuity, a psychedelic conscious hip hop song, on August 20, 2018.
These are the lyrics to Ingenuity :
Ingenuity
Continuity
Congruity
Facing scrutiny
Raising mutiny
Lucidly
Like a true gypsy

Kedrick the Head Trip
Psychedelic epic
Runic divination
Therapeutic herb, mushrooms and roots
Induced this
Intuitively influenced aesthetics of music
Elusive, conducive
To commemorative penmanship that's
Consecutive

Immaculate Om chant
Astrological.
Philosophical like Immanuel Kant.

Primordial.
Clairvoyant.
I'm cognizant and benevolent.

Embrace this, and go scavenging with javelins.
Shapeshift into a makeshift spaceship.
Traveling, rambling on to the Amazon's pantheon where the feral amiable animals and egalitarian heroines are jamming on Grateful Dead songs and recording electronic voice phenomenon.

Telepathic
Sympathetic magic
Has conjured some pure ectoplasmic entity in this Deadheady tent city where the psychedelic hippies
Speak of equality and equity.
We don't pray, we merely say,
Blessed Be
Especially at the medicinal weed dispensary.
We are defending peace with empathy.
This be spiritual ecstasy.
Everyone oppressed, every refugee gets our sympathy.
Wizardry has given me an epiphany,
Apolitically.
I exist to be instantly primitive and at peace.
There has to be resistance to be free.

Ingenuity
Continuity
Congruity

I had already written protest songs years ago that are about topics still important. The protests against police brutality were mentioned in Call for Liberation.

Updated lyrics to Call for Liberation :

So many protest.
Everyone is oppressed.
Nobody has freedom at anyone else's expense.
I must insist that authority should cease to exist.
I'm an anarcho-primitivist.
We must resist Empire and its many clients.
They're all tyrants
My Zerzan-esque verses will burn down churches to murder (neo)conservatives for their disservice.
They deserve it.
Proudhon correctly said, Property is Theft, and influenced Bakunin.
We need more than a revolution.
Progress is a myth.
Technology inflicts pollution upon Earth as persecution, hence what Edward Abbey said was the industrial way of death.
Civilization is self-destructive and meant to oppress.
When ignoring the facts, some have resorted to a personal attack.
The appeal to hypocrisy is obviously a logical fallacy to blame us for using technology while in civilization's clutches, as if blaming a cripple for using crutches.
Anarcho-primitivism is what I believe in. There can't be freedom where there is authority, hierarchy, and other crimes of the civilized.
I support nomadic forager tribes.

Authority and hierarchy have divided us, and lied to us.
We had been told that our rights were recognized and wouldn't be denied.
Empire has tried to deprive us of our skills that we needed to survive.
The low lives who hide behind a badge fabricate crimes to meet their quotas.
They patrol us and enforce their war upon us.
Empire and its apartheid has to end, and we need not let it slide ever again.
We can easily resist them, and we will win.
We outnumber and outwit the oppressors.
We can do much more than merely demonstrate against them.
They intend to arrest anyone who protests them, but we don't have to let them.
If we had all been killed, then there'd be nobody to oppress when there's none of us left.
I told them I won't tolerate the laws and hate they have caused for so many years.

I made myself clear
They didn't hear because they had lard in their ears.
Yet we are precisely what their Empire should fear.
Much like the Irish volunteers, we're undefeated.
Those who profit from apartheid have repeated their lies, but that doesn't make them true.
We must liberate the Earth, as that's what we are obligated to do.

I wrote Defy Dystopia *long before* 2020.
The lyrics to Defy Dystopia :
civilized society is entirely for shills
and psychiatry kills
by prescribing pills
to cause depression and anxiety, thus
depriving its targets of survival skills
(×2)
the populace is systematically poisoned by a pharmaceutical industry that brutally despises liberty
as the poison pushers avoid all liability,
barely even discreetly,
quarantines are caused by corporate greed to sell vaccines
after sanitation had already decreased deaths from infectious diseases
by 90 percent before the vaccines shed the germs to spread,
hence the fear mongering is measly,
the vaccinated majority are brutally duped
given shots like they forgot surviving chickenpox,
poison pushers walk all over us until we make them run away from us thus before us because they exploit us.
They contaminate the water and pollute the air
and hate us because we dare to care.
Newscasters who spew disaster don't inform those who veiw that a fashionable discrimination,
mentalism or sanism, a variation of ableism or disabelism
is endorsed as preferable
while everybody who's stigmatized and ostracized
is considered expendable
and detestable
for being traumatized and almost universally despised
many are forcibly drugged and electroshocked to be vegetables
it's disturbing to describe
such reprehensible
atrocities enforced by
Probate Judges
who hold their grudges

while the reporters don't want to realize they stigmatize those who would probably save their lives.
Fear sells. I'm not buying.
Measles isn't a death sentence.
Censorship of a documentary
Is barely even trying.
The fear mongering is blatant denying and lying.
Measles isn't bubonic plague.
Such feeble claims aren't even as vague rather than opposite the truth.
The populace is too afraid to comprehend proof.
Distress when the press will degrade
a minority who couldn't weaken any herd immunity,
That's inherently absurd, brutally undeterred by scrutiny.
The vaccinated majority is told lie after lie.
The herd immunity rationale doesn't apply
When pretending viruses could be spread by those who haven't caught them or that new strains are to blame.
That's an inherently bogus claim.
Forced vaccination with bans and badges are inhumane.
Mandatory vaccination is oppressive because it's coercive, thus indefensible.
There could be internment or worse for those who don't get vaccinated on schedule.
The autists are stigmatized by lies and portrayed as expendable.
Autism doesn't cause rampages,
The savant syndrome misdiagnosed while geniuses are locked in cages.
The reprehensible sadistic staff will Drug Shock Misdiagnose
To push their drugs to those who thought they were immunized.
Disease is exacerbated.
Only a minority are unvaccinated.
The harm caused by measles is exaggerated.
The idea of a herd immunity weakened by a minority is outrageous,
Like bogus bans and badges on those who didn't catch anything and therefore, are apparently not contagious.
Doped up staff are sociopaths who laugh as they steal opiates from the detoxification wards they're working at, forcing prisoners into rehabilitation.
This invasion is futile, it's desperation when the pushers resort to slander phrenia.
Therapy can't be forced.
Pushers label anybody
'mentally ill' without evidence
then pretend they have grounds to torture
while claiming to 'medicate'
those whom they denigrate to decimate
it's never therapeutic when against their will
For freedom from psychiatry,
force and fraud,

I easily see through a façade
civilized society is entirely for shills
and psychiatry kills
by prescribing pills
to cause depression and anxiety, thus
depriving its targets of survival skills

My mood improved by summer, not spring like usual. The winter blues was extra rough. By mid July, I was feeling much better. In fact, there had still been interference.
Months later while blockages remained, I figured maybe a few months meant a season and a half or so, since inutuition isn't necessarilly 100 percent accurate.
As mentioned earlier, towards the end of July, I finally heard good news; I'd probably have better housing by the fall.

Chapter Two D
January 2020
Music is Life and I'm Condemning Psychiatry
Thursday January 16 2020
Posted this online :
#Psychiatry is reprehensible.
Years after #medicinal herb was relegalized in #Connecticut, the state STILL won't go after irrational psychiatrists who #torture people over medical necessity. I'm not afraid of naming names online. The same doctors who torture people by forcing drugs upon them also say, "don"t do drugs".
Why not make an example of them?
Here's a list of drug pushing bigots who forcibly drug their targets and say "don't do drugs":

Micheal Edward Balkunas
Christopher L. Yergen
Jeffrey T. Shelton
Enrique J. Tello
Susanne Wargo
John A. Nazarian
Richard J. Miller
Wayne Cotton

NOBODY deserves torture.
Every time the drug pushers refuse to taper the drugs, their targets are forced into hospitals over withdrawal symptoms, thus Post Traumatic Stress Disorder is exacerbated. Not everybody can afford a medicinal cannabis license. PTSD is usually misdiagnosed as "bipolar disorder, schizo affective disorder, and schizophrenia"; the go to misdiagnosis.
The burden of proof is on the doctors, and Probate Judges are unlikely to request evidence since judges are immune to lawsuits.

Medicinal cannabis still prevents paranoia because it's still relaxing, regardless of the placebo effect. The myth of "ammotivational syndrome" is backwards, the medical necessity motivates its users. The myth of "impaired concentration" is also backwards.
The CVH abuse scandal was caught on tape. One nutcase is going to jail for what they ALL do
The only lunatics are the staff, not the prisoners. The crazy staff will label anybody else "mentally ill" to shift the blame away from themselves.
Medical necessity isn't "abuse", nobody went "insane" from a relaxing medicinal herb, and repeating a lie won't make it come true.

Still no relief. I've been trapped in the wrong area since October 2017. No break from stress. My money gets wasted on rent for solitary confinement. Nobody tood me what I'm falsely accused of. I was forced to sign the lease and nobody warned me I would never be allowed to relax. Due to a Probate Judge illegally appointing a Conservator of Person and Estate, a stranger forces me to suffer anxiety attacks and wastes my money on rent. My own "family" refuses to help, they say "look for a place and move" AFTER being told there's a Conservator of Person and Estate! Still not one moment of peace.

Zen Bar has got to go. The bigots deserve much worse than losing customers. Mistreating musicians was bad for business already, and now these snobs assaulted a "disabled" person. I was already leaving BEFORE being PUSHED. That ought to be the last straw. Their rationale was "people were complaining" as if those people couldn't just LOOK THE OTHER WAY. I had paid the cover charge AND spent $. I had nothing to do on New Years' Eve, so I resorted to Zen Bar. Now they're publicly called out. It's known that the bullies at Zen Bar assaulted a "disabled" person.

_____ sent me some healing and strength during the surgery.

3:42 p.m.
Sent this to _____ :
you sending me the healing kept me alive this (whole) time. Thanks. I dunno about attending events by myself it's too risky. With my deffeciency of air, I should socialize more. It doesn't happen when I only have a fee days a time in Bristol. I'm surrounded by jerks and I've been without a break this whole time. This years' winter blues is worse than usual and I don't react well to Valentine's Day. I feel like I'm about to die from stress. I don't even have an outlet to vent when in a writers' block. It's unbearable that I can't even sublimate. Being trapped here will eventually drive me off the deep end. To my credit, I handled this well at first. I'd gather the

actual reason almost nobody cares about me is because I'm poor. Authorities don't care that "discrimination is against the law", it's unenforced. Employers refuse to hire me. SSI is my only $ and nobody's impressed. I literally have very few friends in real life. When I can smoke herb again, I'd rather share it. It's not the same smoking by myself. This setting also is bogus. I've got worse than the usual fear of aging, I wasn't allowed to enjoy my youth, I was locked in cages for most of my life. I'm trying to get some relief while I still can and it hasn't worked yet. Not too late, just close to it. If I could enjoy anything even once more, that'd be better than nothing.

6:09 p.m.
I don't react well to Valentine's Day. Not cool to "rub it in" that not everybody has anything to celebrate. If I could skip it and go directly to St. Patrick's Day, I probably would.

I'm still trapped in the wrong area. This problem would've been solved if enough people had a conscience. I needed a break from the stress so I could recover. Instead, I was harassed in my house because nobody had the decency to bring me to an event so I wouldn't either remain isolated or be easily targeted for attending an event alone. That's my $ paying rent for this shithole and it's not easy to plan for better housing when still in shock from trauma. My mood is slightly improving due to the weather, but I'm still infuriated by the lack of compassion. I've been betrayed.

Baja sleeps on the job, then gives me a hard time for knocking on the door to the office because she had to wake up. Her innappropriate remarks about my family were the last straw. It's alarming enough that she gets paid to sleep. Baja doesn't know me or my family. When my "mother" denied me transportation to Bristol, Baja said, "I don't blame her", so I'll have to report that.

called out Dr. Jeffrey Shelton on Google reviews and elsewhere :
Medicinal cannabis saved my life. When Dr. Shelton prescribed pharmaceuticals that caused depression, I smoked herb to improve my mood. When he prescribed pharmaceuticals that impaired concentration, I smoked herb to concentrate. Medical necessity isn't "abuse". The myth of "ammotivational syndrome" is backwards. The medical necessity motivates its users. To this day, a prehistoric medicinal herb still prevents paranoia because it's still relaxing. Dr Shelton will misdiagnose anybody to shift the blane away from himself, and he prefers to prey upon easy targets. His targets are mellow, docile, and passive. Kindness is mistaken for weakness. Dr. Shelton is a bully.
Every time prescribers refused to taper the pharmaceuticals, I was traumatized by involuntary admission to hospitals because of withdrawal symptoms. I finally tapered them myself, and I'm rising above the brutality inflicted upon me. I have a medicinal cannabis license now.
Dr. Shelton is guilty of insurance fraud and worse. The rationale for misdiagnosis is "insurance companies will have to be told they're paying for something". The Department of Public Health has been told about Dr. Shelton and he will hopefully be brought to justice very soon.

The charlatan Joe Rogan enccouraged "Dr" Phil, a known hatemonger. Unlicensed psychologist and bully "Dr" Phil has no idea the first medical necessity will never "impair concentration", he would recant his lies if he had difficulty concentrating. The first medical necessity will never "cause paranoia", NOBODY gets "paranoid" from a relaxing medicinal herb that'll always prevent paranoia because it'll always be relaxing. The myth of "ammotivational syndrome" is backwards. The first medical necessity motivates its users. The safest and most effective medical necessity will never be "harmful", exploting people by broadcasting their problems on TV is harmful. Unlicensed psychologist and bully "Dr" Phil ruins lives. On my way to the dispensary. Been without tobacco for awhile.

circa 11:40
at the dispensary, I asked about the Compassionate Care Program. Or Compassionate Need Program (?). I was told the letter should've arrived within one week. I submitted the application about a month ago.

circa 4:30 p.m.
After withdrawing all dat, scavenged tobacco. The nicotine gum doesn't reduce the withdrawal symptoms.

Headache and tobacco withdrawal interfered, so no relief; except that I wrote a bit. Almost felt a bit better until the tobacco withdrawal got unbearable, then I got a headache. That was my last $25 until Monday. I was on tolerance break from Tuesday until Friday. Now I'll do so again until Monday, then try again.

The morning
FB post :
Humans are social animals. The conditions humanity evolved under were nothing like the #dystopia and I was already harmed by forced isolation before the quarantines. Now that events are shut down, everybody else can know what it's been like for me this whole time being a political prisoner while a conservator wasted my money on rent as I was traumatized and not allowed to move out. The Probate Court won't allow me representation.

circa 8:50 a.m.
Using cartomancy to determine if I'd been cursed or not, the bad news is in.
Removed Jokers from deck.
Shuffled cards thinking about it and asking if I had been cursed.
Stacked cards until I got either an Ace or 10 in the stack until I had 3 stacks. There were 2 Aces. If it were zero Aces, that'd mean no curse. 2 out of 3 Aces meant a 66.6 percent chance of a curse.

11:49 a.m.
FB post :
Before anybody even mentioned #coronavirus, I was forcibly isolated and repeatedly traumatized in a house I didn't choose. That's what society inflicts upon me already, regardless of any virus. I'm was never willingly reclusive, I was excluded before any #quarantine.

The pro-vaxx #media denigrates everybody with #autism. We're portrayed as "monsters who shoot children". The #pharmaceutical industry OWNS the media. The pro-vaxxers are taught to hate and fear everybody with autism. They obviously don't want to be like us, so they deny that #vaccines are the main cause of autism. They're terrified of us for the same reason they're afraid of a temporary ailment that causes a fever and a rash for less than 2 weeks and then never resurfaces. #Measles is rarely fatal, rarely severe, and survivors never catch the same #virus again, they have lifelong #immunity because they've already survived measles, and they're less susceptible to #diseases such as Parkinson's #disease and #cancer because they've been through the measles, thus they're protected; hence I don't give any creedence to the myth that a temporary ailment could possibly be worse than being hated and feared by the pro-vaxx populace. Deaths from viruses already declined by 90 percent BEFORE vaccines. #Sanitation #hygiene, and #nutrition saved many lives.

When I try to delete posts from this page, that usually fails. I sent a bug report months ago. I didn't intend that everything posted remain on the page. I also type so fast there's missing words and typos and et cetera.

Psychedelic therapy could help revive whatever positive memories I might've had before they were expelled and replaced by traumatic memories. I don't vividly remember enjoying anything. Post Traumatic Stress Disorder was exacerbated to extremes. I have only a vague, askew recollection of anything else besides trauma.

Posted this online because I want it known what's been inflicted upon me :
I don't remember enjoying anything. I only remember trauma. I was already forcibly isolated before anybody even mentioned coronavirus. I just needed a ride out of the cage. I recieved nothing but snotty replies like "rent is standard '' and "look for a place and move '' and "talk to your case manager". My money pays rent for solitary confinement because a lawyer has my money. The Probate Court appointed a stranger to ruin my life at the behest of white supremacists who think jazz musicians and Mexicans are "out to get" them. Community Mental Health Affiliates, a hate group, sent bigots to lie under oath. The judge encouraged perjury. Medicinal herb saved my life until I was yet again traumatized in this house. CMHA discharged me to Continuum of Care in 2015. Since October of 2017, I've been trapped in the wrong area. I was forced to share a house with a bully who threw out my belongings, stalked me by waiting for me at a park and even pulled down to his pants to indecently expose himself. Medicinal herb gets less and less effective while I rot in the cage. There's no enjoying anything here.

11:50 a.m.
I finally have my last $30 until April, so I don't know what I'll do next week

The other day, I did the cartomancy again and all 3 aces now. I suspect it's an inherited curse on Mayflower descendantds I unfortuhately am one; hence my surnname, Tucker is apparently English . I don't know much about that side of the family's history and what I do know is negative. At least I verified that I wasn't wrong. The medical conditions aside, there's also at least one curse. It causes undeseved negative reputation, bad luck, constant headaches, loneliness, abject poverty regardless of either hard work and / or talent, et cetera. Yeah, sounds like a curse or maybe more than one. It might be more than the Mayflower descendant's curse. Might also be karmic debt I tried hypnotherapy to remember past lives and I couldn't. There's blockages when I try to meditate. Every time I tried, it was prevented.

many deaths were misattributed to #coronavirus when elderly people with other health problems also had coronavirus. They didn't die from coronavirus, they died with coronavirus. When #lawmakers #capitalize upon mass #hysteria to #mandate a coronavirus #vaccine, I'll remember they lied and many quickly recovered from said #virus without any vaccine. The #media's #fearmongering campaigns reoccur constantly. I don't believe the #hype. The actual death toll is much lower than portrayed.

If this #lockdown ever ends, will anybody give me a ride to a therapeutic setting like my "friends" should've done YEARS AGO? I doubt it. #Psychiatry stole my youth, I was locked in cages and forcibly drugged for most of my life. #Torture is what happens to #ActuallyAutistic ppl IN REAL LIFE. #Autism isn't how it's portrayed on TV and in movies. #PTSD won't just let me walk away. My traumatic past doesn't let go of me. I was already forcibly isolated before the #quarantine and nobody would even accompany me to an event. When I appear in public alone, I'm terrified because I'm an easy target. Autism is devestating IN REAL LIFE, so the pro-vaxxers should STFU!

sent this to Senator Chris Murphy :

why not address the autism epidemic? I'm autistic because of vaccines and I wouldn't wish this upon anyone. I'm expected to fend for mysef because I'm on the highest functioning end of the autism spectrum. I'm fed up with being labeled a "retard" and a "creep" and told "we don't like your kind around here". Pro-vaxxers either think autism is "no big deal" because they watch TV and movies OR they think autism suddenly pertains to rampages because a few bigots said so on the news. Deaths from viruses already declined by 90 percent BEFORE vaccines. Sanitation, hygiene, and nutrition saved lives, unlike vaccines. One study was retracted by force and the pro-vaxxers think that proves that vaccines suddenly don't cause autism. Even after mercury was removed from many vaccines, they still contain other poisons that cause autism. The pro-vaxxers don't comprehend the difference between ingestion and injection, they say, "there's more mercury in fish oil than vaccines". They say they'd "rather be autistic than dead" like they've never heard of any other possibilities besides autism and death. Infant mortality increases

along with vaccination, hence the highest infant mortality rate is that of the U.S.A.! Vaccines kill many babies. They can cause encephalitis, seizures, cancer, et cetera. Vaccines are manufactured by pharmaceutical companies. They're incorrectly called "free" in some countries despite that they cost lives. The vaccinated vast majority keeps getting sicker.

Unlicensed psychologist and bully "Dr" Phil has no idea the first medical necesity will never "impair concentration" or "cause psychosis", that fraud would sing a different tune if he had difficulty concentrating. Medicinal cannabis remains the ONLY way I concentrate. Nobody gets "paranoid" from a relaxing medicinal herb that'll ALWAYS prevent "paranoia" because it'll ALWAYS be relaxing. The first medical necessity also treats traumatic brain injuries. The bully "Dr: Phil told someone with a TBI the myth that the first medical necessity somehow "causes brain damage". He coerces recovering alcoholics and drug addicts to relapse, either by giving them alcohol and Xanax or by telling them they're "still using" when they're not; they can't remain clean and sober without medicinal cannabis as a crutch to take the edge off of recovery. At least Jerry Springer ADMITS his show is garbage! "Dr" Phil exploits people by broadcasting their problems on television. It's all about ratings, money, and attention. Shock value increases ratings, hence the phony "Dr" Phil ruins lives to add more drama to his show.

Domestic violence has skyrocketted because of stay-at-home orders. The pro-vaxxers are to blame. Deaths from viruses already declined by 90 percent before #vaccines. The pro-vaxxers either think #autism is "no big deal" because they watch TV and movies or they hate and fear all #actuallyautistic people because the news #media portrays us as mass shooters. Many lives were saved by sanitation, hygiene, and nutrition; not vaccines. I have autism IN REAL LIFE and it's not like the press claims.

I'm still denied better housing. No recovery allowed, no "rebuilding lives", the opposite is true; Continuum of Care is RUINING LIVES. I wasn't warned that I'd never be allowed out. Continuum of Care doesn't allow anyone to graduate out and have a better life. The unqualified staff vowed revenge because I took a stand against their negligence. They thought they could stay in the office and get an easy paycheck. They had to remove Mike Inigo after he had been harassing me and throwing out my belongings. Just to rub it in, Continuum of Care denied me a reimbursement. Leann Farley, the manager of this house, would be behind bars if there were any "law enforcement", those kinds of laws are unenforced; and Probate Court denies me representation. There was never any grounds for a Conservator of Person and Estate.

The lyrics to Holistic Altruistic Mystic:

I'm a #holistic #altruistic #mystic with #cryptic #intrinsic #rhythmic
oneiric psychic type #psychedelic dreams both vivid and even lucid at times
in an unpredictable, sporadic manner
I'm some sort of #nomadic #scavenger
an #oneiromancer and
a #vagabond, a traveler
who arrives with #ganja and lavender
as the knight points sword towards the moon
recognition when efforts come to fruition soon
with #intuition,
I'm a #sorcerer, a #forager with extrasensory perception
smoking the dispensary's most effective medicine
with my #precognition, I dream #premonition
I'm sensing an impending schism inevitably affecting evidentialism
Divine #enlightenment is my entitlement
when I write about my syncretism
I'm a #philosopher by definition because I love #wisdom
I know when to call for #sedition
via #prediction
to cause a transition
back to the #feral humanity and with sincerity
with relentless temerity
I express #solidarity
rather than digress from charity
I have emphasis and clarity

I'm an innovator, not an instigator
I'm a #nature #liberator against any discriminator
and I've been more than just a demonstrator
I pioneered being medicinally high for years
I'm so polarizing I'm #divine and revered while
also despised and feared
for being a broke rockstar, just wise and weird
I descend from #Irish volunteers
Not to digress from the point,
I'll smoke a pregnant joint
I believe in #AnarchoPrimitvism
I support brave #cavewomen
I'll dispel any doubt left
that Property is Theft
I'm about to get improper and incorrect
I recollect an era when I had already rejected propaganda
I'm a head of my time
I'm too #eccentric to define

What happened to Peace Love Unity Respect? The "rave scene" went downhill a long time ago. Leila Harrison, a DJ (or something to that effect) thinks anything that contradicts the #fearmongeringmedia's narrative is "just a theory", and she cyber bullied me for having #autism. Being a DJ (or whatever) doesn't mean they can't also be ableist. I was also antagonized by Operation:Breakbeat for thinking for myself instead of obeying the #media. These people are terrible.

The pro-vaxxers are afraid of a fever and a rash that ends after about a week, so they'd rather be prone to seizures and unable to speak.

This lockdown still sickens me. I feel
other people's pain because I'm an empath. None of them empathize with me. Many suddenly lost their jobs and suffer in poverty like I do since I'm denied employment. Abruptly crashing the economy caused increased domestic violence, suicide, et cetera. Many are unprepared for homessness. War criminals and serial rapists don't want to save any lives from a virus.

Humanity evolved under better conditions than this, and should return to its origins.

I condemned the Wethersfield Police Departtment on its Facebook page:
Continuum of Care scams me, the unqualified "staff" bully me to get revenge. They expected an easy paycheck, I took a stand against their negligence, now they bully me constantly. They hid in the office the whole time I was harassed by Mike Inigo. Just to rub it in, Continuum of Care denied me a reimbursement for my belongings the bully threw out. The frauds who pretend to "work" here would be behind bars if there were "only a few apples". I've been trapped in this improper setting since October 2017 because years ago, Community Health Affiliates goobs lied under oath knowing they wouldn't be penalized for perjury; hence a Conservator of Person and Estate was illegally appointed. I'm terrified of the crooks who claim to "rebuild lives" while ruining lives. I'm a political prisoner due to ableism.
My belongings didn't grow legs and run away Mike Inigo threw them out, and he even pulled down his pants to indecently expose himself. Leann Farley, the manager of this house, still hasn't been brought to justice. None of these frauds could possibly be qualified, they get an easy paycheck to ruin lives. If there were

any "good" police officers in Wethersfield, these crooks would be behind bars. They should've been arrested for calling the Mobile Crisis Team and the cops to get revenge when there was no crisis.

There are varying degrees of #autism. The sitcoms and movies don't count, they're fictional. It's #ableist to downplay autism. Even the highest functioning end of the autism #spectrum is nowhere near how it's portrayed on sitcoms and in movies. The pharmaceutical industry is paying the media to simultaneously promote two opposite lies about autism. The news indoctrinates the populace to hate and fear people with autism while sitcoms and movies diminish our plight like it's not a big deal, hence the pro-vaxxers are indecisive about wether or not to admit they detest us. The media's contradictory lies are both outrageous.

#Vaccinators discriminate against #actuallyautistic people by depriving us of compensation and closure. There hasn't always been an #autism #epidemic. If autism were genetic, then autistic people would descend from autistic people. #Vaccines continued causing autism even after the mercury was removed from (many of) them because there are other neurotoxins in vaccines besides mercury. They also contain aluminum. Sitcoms and movies diminish autism as if it's somehow not a big deal while the news indoctrinates the populace to hate and fear people with autism. There are other causes of autism besides vaccines, but it's usually caused by vaccines. This was proven long before Andrew Wakefield's study that he was forced to retract because the pharmaceutical industry ruined him. Scarlet fever declined, and there's no scarlet fever vaccine. Plague declined, and there's no plague vaccine. The vaccinators are wrong to steal credit. Nobody's immunized by vaccines. The #pharmaceutical industry relies on vaccines to cause sickness so more drugs sell. Injection differs from ingestion, hence fish oil capsules wouldn't cause autism because they're not injected.

People nowadays are inflicted with much worse than #chickenpox or #measles. Dying from #vaccines or being irreversibly harmed by them is much worse than getting sick for a week.

If there's a plague vaccine, then it's seldom if ever used. There's no Sclarlet fever vaccine and the typhoid fever vaccine was never widely used. Better sanitation reduced the death toll from viruses by 90 percent.

All deaths caused by the vaccine will be blamed on the virus.

Freedom OF the press isn't FOR the press, that's BACKWARDS. There's no excuse for the media promoting #ableism and #sanism. People labeled "mentally ill" are more likely to be victims of violence than perpetrators thereof. #Psychiatry preys upon good and innocent people who are mellow, docile, and passive because kindness is mistaken for weakness. If the lockdown ends, will anyone have the decency to interact with me so isolophobia won't ruin me? I doubt it!

Continuum of Care is a scam. Crooks are claiming to "rebuild lives" while ruining lives. Not once have I been "treated in a humane and dignified manner", these crooks use me as a punching bag while they get an easy paycheck and a stranger gives them my money for rent. I can't just move out, I was deprived of independence in Probate Court because Dr. John A. Nazarian is afraid of losing customers to medicinal #cannabis. I have the license now. Medical necessity isn't "abuse". That hate monger isn't my doctor anymore, and there was never any grounds to appoint a Conservator of Person and Estate. I was repeatedly retraumatized in my house. Anyone who did this to a dog would rot in jail for cruelty to animals.

circa 6 p.m
I posted this online:
Reality is subjective and relative. Nobody can be "out of touch with reality". There's no such thing as "psychosis". There are no "psychotic disorders". Any easy target can be labeled "psychotic", just like any easy target can be labeled "bipolar, schizoaffective, and schizophrenic". It's a scam to push #pharmaceuticals. Bullies misdiagnose easy targets to shift the blame away from themselves. #Psychiatry kills.

It's not a coincidence that #autism causes the same symptoms as mercury poisoning. #Vaccines were already known to cause autism long before Andrew Wakefield's study that he was forced to retract because the #pharmaceutical industry ruined him. Getting sick for a week is NOT worse than autism. People with autism are suffering in real life. The death toll from viruses already declined by 90 percent before vaccines were introduced. Even after mercury was removed from many vaccines, they still contain aluminum and other neurotoxins that cause autism. The pro-vaxxers are indoctrinated to hate and fear #actuallyautistic people, hence they deny us compensation and closure. Their #ableism sickens me, especially when they impersonate the fictional characters from sitcoms and movies. What's next, wearing blackface?

Book Three
Chapter One A
Early 2021

Civilization and state are one and the same. No anarchist would ever promote civilization, that lie is specific to the internet. The appeal to hypocrisy is a logical fallacy. Statists don't have any valid claims, so they label me a "hypocrite" for using technology to disseminate a critique of technology. Anarcho-primitivism remains incontrovertible.
The pharmaceutical industry is systematically poisoning the populace to sell more drugs. Deaths from viruses already declined by 90 percent *before* vaccines were introduced. Vaccinators steal credit from plumbers. It's not like anyone's unaware that the pharmaceutical industry profits from sickness, the pro-vaxxers don't comprehend that vaccines are pharmaceuticals.
Dystopia is much more blatant now than it had ever been before. There are people who think getting sick for a week to 10 days is somehow worse than remaining sick for an entire lifetime. Yeah, right! I'm immune to chickenpox because I've already had it.
Pro-vaxxers don't know to only speak for themselves rather than on behalf of everyone on the autism spectrum. Just because they watch TV and movies doesn't mean they know anything about autism. It's *not* a coincidence that most autism emerges upon vaccination or soon afterwards.
Shame on the press.

A surgeon who mocked the so called "anti-vaxxers" has DIED from a #vaccine. Rot in piss, Tom Flanigan.

Diseases don't just come and go, they come and stay. The #measles isn't a disease, cancer is a disease. I'm still waiting on my debit card. I called Pierce of DMHAS today. He'll send me the paperwork to file a grievance.

After decades of being forcibly drugged, something's wrong with my kidneys. It might be too late to find new friends, and the ppl I grew up with didn't believe me when I was harassed and stalked.

One of my grandfathers died from kidney disease.

This evening, I had an interesting conversation with my older brother, _____. Among the topics mentioned, we agree that autism should not be downplayed. Anyone who's even *witnessed* autism knows it's not how it's portrayed on TV or in the movies.

I'm fed up with being banned from places and assaulted by bouncers for being an easy target, so even if there were a full reopening; I might just not attend any events.

If autism were genetic, it would've already existed before vaccines. It's NOT a coincidence that most autism emerges upon vaccination or soon after. It's ableist to deny that vaccines cause autism (as for the rare cases of an unvaccinated person having autism, other things causing it doesn't mean vaccines somehow don't cause it. Deaths from viruses already declined by 90 percent BEFORE vaccines were introduced.

I sent this letter to Governor Ned Lamont:
Every involuntary admission worsens Post Traumatic Stress Disorder. I was forcibly drugged since age 11. When prescribers wouldn't properly taper the pharmaceuticals, I suffered withdrawal symptoms. I was tortured in hospitals. The misdiagnosis from 2005 remains in the records, and I was given a hard time about when my wisdom teeth were infected despite that dentistry has nothing to do with psychiatry. Good and innocent people are preyed upon because kindness is mistaken for weakness. Psychiatry takes advantage of nice people. The prisoners are kind, gentle, compassionate, and harmless. The media is lying. Anyone can be misdiagnosed so drugs get pushed and people labeled "mentally ill" are more likely to be victims of violence than perpetrators thereof. Good and innocent people are under attack. Therefore, self defense is necessary.
Dr. Jeffrey Shelton sends people through a revolving door by forcing them into hospitals over and over just for kicks. Dr. John A. Nazarian accused me of "abusing marijuana" and tried to deprive me of said medical necessity by denying that I have PTSD. APRN Susanne Wargo prescribed Xanax and I nearly died from withdrawal symptoms when I misplaced it.
The authorities won't do anything about it until someone considered important tells them to do their job.
Medicinal cannabis saved my life. I have the license since 2017. I should've had it much sooner, but Sara Carlson Allwood misdiagnosed autism and PTSD as "bipolar disorder", et cetera.

The Department of Public Health encourages violations by allowing and denying them.

I had a nightmare about not graduating high school and being lied to and told I did. In real life, I did.

□□ According to the U.S. Centers for Disease Control and Prevention, you’re not counted as fully vaccinated until a full 14 days have passed since your second

injection in the case of Pfizer or Moderna, or 14 days after your first dose of Janssen, despite the fact that over 80% of deaths after the vaccines occur in this window. How convenient

Anyone who dies within the first 14 days post-injection is counted as an unvaccinated death. Not only does this inaccurately inflate the unvaccinated death toll, but it also hides the real dangers of the COVID shots, as the vast majority of deaths from these shots occur within the first two weeks

I posted this online this morning:
The CDC also has two different sets of testing guidelines — one for vaccinated patients and another for the unvaccinated. If you're unvaccinated, CDC guidance says to use a cycle threshold (CT) of 40, known to result in false positives. If you're vaccinated, they recommend using a CT of 28 or less, which minimizes the risk of false positives

The CDC also hides vaccine failures and props up the "pandemic of the unvaccinated" narrative by only counting breakthrough cases that result in hospitalization or death
Hospitals are still also reporting non-COVID related illnesses as COVID-19

I stole this, please share!

circa 10:15 a.m.
I sent this letter to Senator Chris Murphy:
I still get harassed about a misdiagnosis from a long time ago. In 2005, Dr. Micheal Edward Balkunas misdiagnosed me with "bipolar disorder, depression, and schizophrenia" to push drugs. I was incorrectly told the medical records were corrected in 2015, then I was harassed at a dentist's office despite that dentistry has NOTHING to do with psychiatry. I had infected wisdom teeth. The pain was unbearable.
The rationale for misdiagnosis is "insurance companies will have to be told they're paying for something. That's insurance fraud. The Department of Public Health denied all violations. I recovered from pharmaceuticals when they tapered after decades of being forcibly drugged.
This problem can be solved by expunging medical records.

Tobacco withdrawal was probably the main reason I couldn't sleep last night. At least I have the nicotine gum.

I posted this online this morning:
New variants will be announced to keep people afraid. Those who claim to "trust the science" trust paid liars and "follow the science" off a cliff. The governments will milk this fear mongering campaign as much as they can. A recovery rate of over 99 percent means this isn't a pandemic. Nurses dance and laugh while pretending to be "overwhelmed" as people suffer in poverty. Good and innocent people die from the lockdowns. Domestic violence has skyrocketed due to stay home orders. People starve to death because liars suddenly crashed the economy. This mass hysteria is unbearable. If nothing's done about it, the media hype will continue. The politicians at fault for this don't care about people's health. They didn't miss any paychecks. The wealthy get wealthier and the poor get poorer. This class war isn't about protecting anyone from a virus.

circa noon
It's been well over 24 hours without any tobacco, and that's after cutting down for a while.

At least 10 million or possibly about 22 million cancer screenings were missed in 2020 while nurses rehearsed dance routines and pretended to be overwhelmed. (10 million is a conservative estimate, some reports say 22 million: could be even more than that)

guitar, bass and synth by Pterodactylulz
midi drum programming by Pteranodaw

Lyrics:
I'm a holistic altruistic mystic
intrinsic with cryptic rhythmic
oneiric psychic type psychedelic dreams
vivid and lucid in an unpredictable, sporadic manner
I'm some sort of nomadic scavenger
a vagabond, a traveler

an oneiromancer who arrives with ganja and lavender
as the knight points his sword towards the moon
recognition
when efforts come to fruition soon
with intuition
I'm a sorcerer, a forager
with extrasensory perception
smoking the dispensary's most effective medicine
with my precognition, I dream premonition
I'm sensing an impending schism
inevitably affecting evidentialism
Divine enlightenment is my entitlement
when I write about my syncretism
I'm a philosopher by definition
because I love wisdom
I know when to call for sedition
via prediction
to cause a transition
back to the feral humanity
and with sincerity
with relentless temerity
I express solidarity
I have the emphasis and clarity
I'm an innovator, not an instigator
I'm a nature liberator
against any discriminator
and I've been more than just a demonstrator
I pioneered being medicinally high for years
I'm so polarizing I'm divine and revered
while also despised and feared
for being a broke rockstar, just wise and weird
Not to digress from the point,
I'll smoke a pregnant second generation joint
I believe in anarcho primitvism
I support brave cavewomen
I'll dispel any doubt left
that Property is Theft
I'm about to get improper and incorrect
I recollect an era when I had already rejected propaganda
I'm a head of my time
I'm too eccentric to define
I'm well read like many greats
I initiate resistance to state
Sedition will obliterate those who pillage and hate

I'll be correct like Edgar Cayce
I'm the best, just wait
I'm condemning Bill Gates
I'm rebelling against states
I've detested many Presidents and presidential candidates
The heads of state segregate
and they spread pestellence and hate
They fester and decay
I dig the Grateful Dead everyday for 'tis extra heady this way
Even in a decrepit, irreverent, desecrated state in dismay
In an irrelevant haze
